

BP, Auckland, New Zealand

Fibrelite Supply GRP Tank Sumps to a BP Connect Site in Auckland, New Zealand

Fibrelite sumps are vacuum testable ensure watertightness

Strong, robust and lightweight chamber systems

Project Overview

BP New Zealand has standardised the use of Fibrelite tank sumps across its network. A BP connect site was upgraded with new tanks and Fibrelite's S15CR-390 tank sump with manhole cover. Fuel Installations Ltd, the contractor, installed and vacuum tested the Fibrelite products.

Fibrelite products were supplied by Petroleum Equipment Services, based in Auckland New Zealand.
