

Caltex Petrol Station, Cape Town, South Africa

Fibrelite Supply Watertight Tank Sumps and Manhole Covers for Caltex in Cape Town, South Africa

Recently upgraded site with Fibrelite's 900mm covers (FL90's)

Project Overview

Fibrelite's lightweight, watertight manhole covers and tank sumps have been specified by Caltex in South Africa.

Fibrelite's access covers are lightweight, durable and very strong. Every Fibrelite cover is manufactured using high-technology RTM production methods to create a highly engineered, monolithic composite product.

Testable and Watertight

Fibrelite's high-technology RTM production methods are used to create a range of high-quality fibreglass equipment which is both testable and watertight.

Fiberglass 1.2m (42") turbine sump

Highly Effective in Preventing Water Ingress

Many areas have persistently high water tables and Fibrelite's vacuum testable tank sumps have proved highly effective in preventing water ingress and subsequent damage to tank top equipment and possible water contamination to the fuel.

Now allowing easy and safe access

Watertight Fibrelite covers and tank sumps
