

Petrol Forecourt and Green Area, Thailand

Fibrelite Supply Watertight Tank Sumps and Manhole Covers for the Petrol Forecourt and Green Area in Thailand

Thailand Petrol Forecourt and Green Area

Now Allowing Easy and Safe Access

Fibrelite's lightweight, watertight manhole covers and tank sumps have been specified by a leading oil company in Thailand.

Fibrelite's access covers are lightweight, durable and very strong. Every Fibrelite cover is manufactured using high-technology RTM production methods to create a highly engineered, monolithic composite product.

Fibrelite's watertight covers and tank sumps

Highly Effective in Preventing Water Ingress

Many areas have persistently high water tables and Fibrelite's vacuum testable tank sumps have proved highly effective in preventing water ingress and subsequent damage to tank top equipment and possible water contamination to the fuel.
